REPORT OF TRUSTEES OF TRUST FUNDS

The Trustees have continued the work of cleaning up the cemeteries and making some improvements in their condition but, in so doing, have kept all expenditures within the income from the various funds. Should new funds be made available or should additions be made to existing funds it would be possible to make many desirable improvements that it is not advisable to attempt with the present limited income.

The following is a summary of this year's expenditures:

Supt. of Schools: Vincent Gatto, Ed. M., Hillsboro, N. H. Teacher, Mary Phelan.

Below is a list of those pupils who maintained perfect attendance for one or more periods during the school year 1936-1937.

Arlene Rockwell, one term; George O'Driscoll, one term; Cynthia Holmes, three terms; Stanley Rice, one term; Raymond Reed, one term; Shirley Holmes, one term; Theresa Twomey, two terms; Edith Holmes, one term.

The school year consists of thirty-six weeks. It is divided into four terms of nine weeks.

GENERAL DISCUSSION

School opened last September with an enrolment of twenty-four pupils. At this writing our enrolment has gone down to about fifteen, due to our apparently transient families. Miss Mary Phelan of Nashua, who taught in the Hillsboro Town district several years, succeeded Mrs. Agnes Dolan. Miss Phelan has succeeded in carrying on the good work which our school has enjoyed for many years. All of the eight grades are represented in the school. We hope that next fall we may have another graduation such as we had two years ago.

It is a pleasure to report that the school district and the school board are generous in their willingness to conduct a good school. Everything within reason in the way of books and supplies has been furnished to the school.

Last June both intelligence and achievement tests were administered by the superintendent to the pupils. The results showed good progress in accordance with the ability of the children.

A desirable addition to the opportunities already enjoyed by our pupils would be a few magazines and periodicals in order to broaden their outlook. It would also be a fine thing if we could

make arrangements with some other towns in the supervisory union to share the services of a music supervisor, to come to Stoddard once a week to give instruction in music. The cost would not be very much. Most of the towns in New Hampshire at the present time have the services of a school nurse. The nurse is of great value to the schools in times of epidemics. Nurses arrange for clinics of different kinds which preserve and safeguard the health of our children. School nurses are hired by a group of towns like the superintendent of schools. The ideal arrangement of course is to have a doctor and a nurse to do the follow up work. The nurse is on the job the year round, and for those towns which cannot afford to hire both a doctor and a nurse, the nurse may perform the yearly physical examination of the pupils without a doctor. When a town joins with a group of towns in engaging a school nurse, each town pays a proportional part of the nurse's salary, in accordance with the number of pupils and teachers in the town. Judging from the fact that we have only one school, the cost of hiring a nurse for Stoddard would not be much more than it costs to engage a doctor just for one yearly physical examination of each child. As already stated the nurse is on the job the year round.

A box stove such as we have in the school at the present time furnishes too much heat for those pupils who sit near, and not enough for those who are away from it. A box stove does not make possible an even distribution and circulation of heat in the school room. The school district should consider the purchase of a jacketed stove. Such a stove would mean comfort for the boys and girls. The cost for the installation of such a heater would be more than made up for by parents, by the saving of doctors' bills to remedy all the ailments brought on by poor ventilation, and a lack of sufficient heat for the children to work in comfort. The sum of one hundred dollars is sufficient for the purchase of a modern jacketed stove which will do away with the disadvantages of a box heater. If such a stove cannot be afforded in the near future, the best substitute temporarily would be to get someone to make a jacket and put it around the heater now in use. Such a jacket is inexpensive.

It should be the ambition of all those connected with the school to make the school better and better as the years go by.

Respectfully submitted,

VINCENT GATTO, Supt. of Schools
